DOCKET FILE COPY ORIGINAL

Re: Administration of the North American Numbering Plan
(CC Docket No. 92-237)

Dear Secretary Caton:

The Puerto Rico Telephone Company ("PRTC") hereby submits its nominations for participants on the working groups and task forces under the North American Numbering Council, as requested by Chairman Hasselwander. The nominations of Roberto A. Correa and Aurelio Ríos are offered pursuant to the Public Notice in the above-referenced proceeding issued on October 4, 1996.¹

LOCAL NUMBER PORTABILITY ADMINISTRATION SELECTION WORKING GROUP

NOMINEE: Ing. Roberto A. Correa, Network Planning Director

1515 Caparra Heights, 11th Floor
Caparra Heights, Puerto Rico 00921

Description of Skills and Experience

Mr. Correa has over 15 years of experience in network planning and related matters. Currently, he is responsible for the network planning of equipment and services in the PRTC network. This position requires him to be knowledgeable about number portability mechanisms. His duties have also included the administration of NXX codes in the 787 area code, and he has been PRTC's representative in the 809 Area Code meetings for four years. In addition, Mr. Correa has addressed industry numbering issues and policies as a member of the Numbering Planning Subcommittee of USTA since 1993. His combined engineering background — both educational and vocational — and practical experience with numbering issues at PRTC and with industry groups qualify him as a valuable addition to Local Number Portability Administration Selection Working Group.

NORTH AMERICAN NUMBERING PLAN ADMINISTRATION WORKING GROUP

NOMINEE: Ing. Aurelio Ríos, Manager of New Services and
Technical-Regulatory Affairs Division, Network Planning
Department

Mailing Address:

OFFICE OF SECRETARY

Description of Skills and Experience

Mr. Ríos has been an engineer with PRTC since 1984. In his current position, Mr. Ríos has supervised the assignment and activation of central office codes on behalf of PRTC, as well as other numbering resources within the company, in addition to coordinating the implementation of new service plans. Mr. Ríos has also been actively involved with numbering issues in the Caribbean, attending the 809 NPA Annual Meeting, preparing the Action and Implementation Plan for the introduction of the new 787 NPA in Puerto Rico, and assisting Mr. Correa in his participation with the USTA Numbering Planning Subcommittee. Mr. Ríos experience and engineering background make him quite familiar with the administration of numbering resources and about the technical and operation workings of the telecommunications network, and he would be a well-qualified member of the North American Numbering Plan Administration Working Group.

Thank you for your consideration of these nominations.

Sincerely,

Joaquín Rivera
